WARRANTY

Our CPA firm guarantees you the largest refund possible (or lowest amount of tax due) with the lowest tax liability on your individual income tax return. If our firm fails to provide this, the firm reserves the right to choose one of two remedies... (1) Refund the firm's charges for the return in question. However, this refund is limited to any decrease in tax. For example, if our fees are \$900 and the decrease in taxes is \$600 our liability for fees refunded would be limited to \$600, or (2) To amend the return in question to reflect the lower tax without any additional fees charged to the client. The firm's liability is expressly limited to either remedy the firm chooses. The firm is strictly not liable for any of the taxpayer's taxes. In addition, the firm's guarantee is only valid using current tax laws and does not guarantee against other returns prepared in violation of tax laws or any other interpretation of laws the firm judges to be incorrect. The firm reserves all rights to interpret tax laws as to their correct application in providing this guarantee. The term of the warranty is three (3) years from the original filing due date of the return.
